Environmental Policy

DROBNA LOGISTIC COMPANY understand the role our entire system plays to ensure a healthy and sustainable environment. This belief is part of our culture and is embedded in our purpose. We will conduct our business in ways that will protect and preserve the environment while reducing our environmental footprint. This includes working with select suppliers and business partners that have a strong commitment to the running of sustainable operations and processes. To drive toward this ambition, we will adhere to applicable legal and requirements relating to the environment everywhere we do business. In addition, our environmental efforts include the following key areas, and are defined by our long-term aspirational goals

Environmental Policy

1

• RISK ASSESSMENT AND MANAGEMENT

- Identify, evaluate, and address environmental risks and emerging trends.
- Use regular, periodic, and objective assessments to ensure compliance with the company and applicable legal requirements.

2

• ENGAGED, CAPABLE EMPLOYEES

- Provide clearly defined roles and responsibilities, training, communication systems and participation opportunities to promote effective engagement from employees at all levels.
- Promote a culture of environmental excellence through innovation, knowledge sharing platforms across drobna system and continuously evaluating and benchmarking our environmental performance.

3

• STAKEHOLDER ENGAGEMENT

- Collaborate (as appropriate) with public and private entities (including governments, non-governmental organizations, other businesses, and local communities) to advance environmental stewardship initiatives

Safety Policy

A health and safety policy is a written statement by an employer stating the company's commitment for the protection of the health and safety of employees and to the public. It is an endorsed commitment by management to its employees regarding their health and safety.

Reasons for Health and Safety Programs or Policies in the Workplace

There are several reasons why workplaces need a health and safety policy or program, including:

- to clearly demonstrate management's full commitment to their employee's health and safety;
- to show employees that safety performance and business performance are compatible;
- to clearly state the company's safety beliefs, principles, objectives, strategies and processes to build buy-in through all levels of the company;
- to clearly outline employer and employee accountability and responsibility for workplace health and safety;
- to comply with the Occupational Health and Safety Act; and
- to set out safe work practices and procedures to be followed to prevent workplace injuries and illnesses.
